## INCONCLUSIVE TB REACTORS

Have you had an Inconclusive Reactor (IR) on your holding ?  
Which has subsequently been resolved (ie passed it's TB test)  
Please check your 'IR's' before selling them

NB: They can only go direct to a slaughter house or AFU under licence.

**South East Marts are happy to arrange this for you.**

The only other option is to test the animal again, at your cost using an interferon-gamma blood test, then if this is negative, restrictions will be lifted.
